CONSPIRACY UNEARTHED.

DOCUMENTS FOUND ON DERVISHES TO PROVE THE STATEMENT.

Beservers from the Egyptian Army, Headed by Truitors, Were to Have Joined Wad-El N'Jumi-The Agreement Not Kept-London Papers Still Harping on the Seisure of the Black

Camo, Aug. 7.-The startling news comes from Toski, the scene of Saturday's overthrow of the Dervishes hordes, that documents have been found in the abandoned camp of Wad-El N'Jumi and upon the dead bodies of his shiekhs which prove the existence of a wideapread conspiracy, with its center among high officials of the Egyptian army and prominent Egyptian leaders in Cairo itself. The invasion by Wad-El N'Jumi with his handful of Dervishes is shown by these documents to have been merely an incident of that conspiracy, which was to have been followed by wholesale treason on the part of the Fgyptian army. These disclosures serve to explain what has up to this time puraled everybody here how the leader of the Dervishes expected to accomplish anything with the insignificant force be brought with him across the desert. It is now clear that he expected to be joined at the Nile by deserters from the Egyptian army itself, headed by the traitors, with whom he had been in correspondence, and by some of the tribes on whose friends Egypt had counted. Just why the traitors at the last moment abandoned the brave Dervish leader to his fate and how it came that their treachery was not consummated is not yet clear. It is quite likely, however, yet clear. It is quite likely, however, that their plans were to throw off their masks and join Wad-El N. Jumi's invadors after they had crossed the Nile, and that Col. Wodehouse's determination to provent their reaching the river at all hazards and his unexpected success in carrying out this purpose threw the compirators into confusion and disorganized their carefully laid plans. ized their carefully laid plans.

Commenting on the Seizure, LONDON, Aug. 7.—The science of the Black Diamond has again directed pub-lic attention to the questions at issue be-tween England and the United States on the subject of the scal fisheries in Behring sea, and the newspapers comment very freely upon what most of them agree in describing as the latest outrage. The St. James Gazette very emphatically condemns the scizure and believes that condemns the science and believes that
the English spenking people on both
sides of the Atlantic are tired of the
dodges of political tricksters, resorted to
to further their own selfish purposes,
such as the dismissal of the British
minister at Washington and the present
gratuitions outrage. The Gazette trusts
that Sir Julian Pauncefote's presence at
the time in London will hasten a settlement of the vexed questions involved in
Black Diamond science. Black Diamond seizure,

The Government's Policy.

The Government's Polley.

London, Aug. 7.—In the house of commons yesterday recent events in Egypt became the subject of animated discussion, and the government was questioned as to its intentions regarding that country. Mr. W. H. Smith stated that the government had no intention of following up the success of Gen. Grenfell by occupying Dongola or Berber. The victory which had just crowned the British arms he declared would in no wise change the policy which England had consistently pursued in Egypt. That policy was simply to maintain the integrity of Egyptian territory and defend the present frontiers. The government would engage in no adventurous plans for extending these frontiers.

FOR THE GOOD OF MANKIND.

The National Water-Ways Convention

WEST SUPERIOR, Wis., Aug. 7 .-- The national water-ways convention was called to order at 2 p. m. by Judge Solon H. Glough. E. P. Bacon, of Milwauhee, was made temperary chairman, Hon F. E. Searle, of St. Cloud, secre-tary. While the committee on creden-tials was out J. J. Hill delivered a speech urging the need of channels that would allow vessels of seventeen feet draught to get into the inner ports. Ignatius Donnelly fellowed, saying that a canal would eventually be built to connect the lakes with the river. Hon, Leroy Adams, of Buffalo, was chosen permanent chair man; W. F. Street, secretary, and W. F. Pholps, of Duluth, and George F. Mer-rill, of Ashland, assistants. Vice presi-dents were appointed as follows: J. S. Dunham, of Illinois; N. P. Haugen, of Wisconsin; H. W. Seymour, of Michigan; William Thurston, of New York; J. C. Flynn, of Minnesota; Hon. Nathan Frank, of Missouri; E. S. Emery, of North Dakota; John J. Gushing, of South Dakota;

After the appointment of a committee on resolutions, Col Graves, of Duluth, read some resolution from the Duluth board of trade asking that the conven ion confine its efforts to the lakes alone. Bierly, of Grand Forks, N. D., who wants some irrigating canals, objected vigorously. Finally the committee on resolutions was left to cover all the watering of the west and northwest, if it sees fit. In the evening Ignatius Donnelly lectured on the great cryptogam and the whole city turned out to hear him.

Rates to be All the Same.

New YORK, Aug. 6.—At a meeting resterday of the New England Truni Line association and the southern associ ation, Commissioner Tuttle presiding, it was decided that on and after Sept. 1 the passenger rates from all points in New England to all points in the south and southeast shall be the same. This will apply to all routes. will apply to all routes.

Buled Off a Track for Life. RACE TRACE, Saratoga, Aug. 7.—The excecutive committee were not at all pleased with the running of Ballston yesterday and both horse and trainer were ruled off for life. No blame what-ever is attached to Isaac Murphy, as it is believed he tried all he possibly could to win. The committee will try to find out the real owners of Ballston, and should they succeed they will be ruled off also.

Capt, William Davison Dead. BALTHORE, Aug. 7.—The Sun's special from Richmond says that Capt. William Davison, who was quartermaster of Stewart's famous Confederate cavalry, died to-day in Farquahar country.

Arbitrators Unable to Agree.

CRICAGO, Aug. 7.—Col. W. P. Rend, Lyman J. Gage and J. E. Williams, who were appointed a committee of arbitration to settle the mine trouble at Streator, announced that they were mable to agree and presented separate propositions for the consideration of those concerned. A conference between the mine owners and the men will be the mine owners and the men will be held to settle, if possible, the differences existing between them.

Hippolyte Defeated. Washington, Aug. 7.—The latest official news from Port Au Prince is to the effect that Hippolyte was defeated in a final attack on Port Au Prince and that his control of the control of t his army has begun a retreat.

IMPORTED GLASS WORKERS. United States District Attorney Lyon Says

Washington, Aug. 7.—A papert has been received at the treasury department from Walter Lyon, the United States district attorney at Pittsburg, in regard to twenty-five English glass blowers, alleged to have been brought to this country in violation of the alieu contract labor law. Mr. Lyon states that he is satisfied, after making the investigation requested by the secretary of the treasury, that the law was violated. He will delay action in the matter, pending instructions from Secretary Windom as to what course he shall pursue. The glass blowers are employed in the glass works of Chambers & McKee, at Jeannette, Pa. They were procured by a Knights of Labor assembly in Pittsburg from a similar assembly in England. That the Law Has Been Violated

Will Carry the Case Up. Will Carry the Case Up.

Privatura, Aug. 7.—It transpires that Chambers & McKee will carry the case of the imported English glass workers at their Jeannette factory to the United States supreme court, if necessary. H. Sellers McKee, of the firm, speaking of the matter, said: "Suppose these men were brought here under contract, are not all the musiciaus and operatic singers brought into this country from Europe not all the musicians and operatic singers brought into this country from Europe imported? Isn't this labor? and isn't it contracted for across the water? If managers have a right to make contracts in Europe with high salaried labor, why should we not have the same right to make an agreement with low salaried, or common labor? There is no difference. We have been charged with making contracts with the men in Europe to come here and work for us. Why we did not have them two weeks until we discharged three of them for drunkenness. Now, if we had a contract to give these charged three of them for drunkenness. Now, if we had a contract to give these people employment, we couldn't discharge them, could we? If any attempt is made to take our employes away from us and send them back to England, we will resist it. As soon as any steps are taken, we will give ball for the mea and make an appeal. If necessary, we will carry it to the supreme court and test the matter. We have no desire to antagonize anybody or resist the laws; but we will protect our mon from outside in-

Meeting of Electric Light Association. Niagara Falls, Aug. 7.—The American Electric Light Association convention met here vesterday. President E. R. Weeks, of Kansas City, read the annual address showing great progress. About 200 delegates were present. A resolution was offered for a committee to co-operate with Mayor Grant in re-spect to the world's fair in New York in 1892. Mr. Denhart, of Chicago, moved 1892. Mr. Denhart, of Chicago, moved to amend by inserting Chicago instead of New York. Mr. Weeks proposed Kansas City. The resolution was finally Kansas City. The resolution was finally amended so as not to commit the convention to the support of any city. The committee on revision of constitution reported. The report will come up Thursday, Messrs. A. R. Fole, of Cincinnati; J. F. Morrison, of Baltimore; F. P. Whipple, of Detroit, and others read papers on practical subjects connected with electricity. The subject of electrical execution will come up to-day.

we will protect our men from outside in-

terference

A Serious Wreck.

Weston, Neb., Ang. 7.—A serious wreck occurred on the Omaha and Republican Valley branch of the Union Pacific, near this place. Freight train No. 5, with a swith engine coupled ahead as a helper, went through a bridge which had been weakened by the heavy rain of Menday night, demolishing the two engines and a number of cars. The engineers and firemen, together with Yardmaster Conklin, of Valparaiso, went down with the wreck. Conklin was crushed so badly that he died in a few minutes after being released. Engineer Mitchell had both leps crushed and died from his injuries. Engineer Mergan had an eye gouged out and the two firemen were scalded and otherwise injured. A Serious Wreek.

Three Italians Killed.

BRADFORD, Pa., Aug. 7.—A bad wreck occurred on the Western New York and Pennsylvania railroad this morning at 10 o'clock in front of the depot at Eldred. The construction train had backed up to the depot loaded with Italians and stee rails. In a few moments a long freight train that was due came thundering along and before the brakes could be se crashed into the construction Rails and cars were twisted in all shapes Two of the cars were thrown in such a manner as to demolish the front of the depot. Three Italians, Antonio Killer-no, Cerand Dolanno and Franc Callo, were crushed in the debris. The former had both legs crushed and will die,

Locating the Seat of Covernment. BISMARCK, Dak., Aug. 7.—The report of the committee on public institutions was presented to the constitutional con-vention. It locates the seat of govern-ment at Bismarck. The report was in-

dorsed by the majority of the committee and in all probability will be adopted. In the afternoon the article providing for township organization was discussed, many of the delegates opposing it on the ground that counties should be permitted to adopt or reject the system by a vote of the people.

The Right One Died.

Madison, Ind., Aug. 7.—William Johnson, a well-known young man, with his sweetheart, Miss Sadie Atney, served Tuesday night as attendants at a wedding. After the ceremony he begged her to marry him. This she declined to do, when he suddenly drew a revolver and fired, fortunately missing her, but, thinking he had killed her, he placed the weapon to his head and blew his brains out, dying instantly.

Sullivan Waives Examination Sallivan Waives Examination.

New Orleass, Aug. 7.—A special dispatch from Purvis, Miss., to The Picayune says: John L. Sullivan and party arrived here about 8 o'clock. Sullivan was arraigned before Justice Carter. He waived examination and was placed under \$2,000 bond to appear before the circuit court, special term, to be held here Aug. 12. Sullivan will leave for Paus Christian and will remain there until the court meets. court meets.

Judge Cummin Much Better. ALTOONA, Pa., Aug. 7.—Judge Cummin, of the Johnstown commission, has greatly improved and his consulting physician believes that the crisis has passed and also thinks that his recovery

Shot Himself Dead in a Park. BROOKLYN, Aug. 7.—A man about 55 years old shot himself dead in Prospect park last evening. The name and address, "Paul Rouse, Morristown, N. J.," was marked on his underclothing.

Pimples, boils and other humors are liable to appear when the blood gets heated. To cure them, take Hood's sarsaparilla.

If allowed to continue tumors form, which often bleed and ulerate, becoming very sore. SWAYNE's OINTMENT stops the Itching and bleed ing, heals ulceration, and in most cases removes the tumors." At druggists, or by mail, for 50 cents. Dr. Swayne Son, Philadelphia. T-T

Springfield defeated Akron yesterday by a accretof 4 to 10. They play there again to day.

tion With Representative Ballroad Mon-A Court of Inquiry to Investigate the Grounding of the Boston-An Expedition to Lake Nyassa.

Washington, Aug. 7,—The following has been received from San Francisco: The twelve Chinese making transit of the United States from Havana to Hong Kong, recently permitted to land at New Orleans, by instruction from Washing-ton, left there on the 27th, arriving at San Francisco on the evening of the list ult., and sailing westward from this port on the steamship Belgio on Satur-day, the 3d inst. A party of six more Chinese leaving New Orleans the same date, made the trans-continental journey and also sailed on the Belgic.

Will Sign for the Secretary of War. Washington, Aug. 7.—Before the sec-retary of war left Washington he di-rected Chief Clerk Tweedale to sign requisitions and other papers requiring the secretary's signature. This authority is conveyed under the act of March 4, 1874. Mr. Tweedale does not act as sec retary, as was erroneously stated when Mr. Proctor was last absent.

Uncle Jerry in New York. WASHINGTON, Aug. 7. Secretary Rush, who left Washington with the president, goes no farther than New York, where an important conference will be held to-day. The programme is to have a number of representative railroad men and Schator McPherson meet the secretary at the Fifth Avenue hotel, at 18 a. m., to discuss matters connected with diseased cattle in transhipment. The secretary wants to have the railroads so arrange matters that they can control the cattle coming over their roads at convenient points, where they may be inspected the more thoroughly. It is the inspected the more thereaging. It is the intention of the agricultural department to do all in its power to provent the ex-portation of discussed cattle. Dr. Salmon, chief of the tureau of animal industry in the agricultural department, will also be present at the meeting.

Will Investigate the Boston's Grounding. Washington, Aug. 7.—When Secre-tary Tracy returns to Washington a court of inquiry will be ordered to investigate the circumstances attending the ground-ing of the Boston on Rose Rock and her suissequent collision with the Vermont in New York harbor. The naval regula-tions provide for such an investigation. Capt. Okane, of the Boston, is consid-ered a careful and competent officer, and t is the belief among naval officers that the the belief among naval officers that both mishaps were purely accidental and in no way the result of negligence. A naval officer is authority for the statement that the damage to the floaton from her grounding is greater than reported. Commodore John G. Walker, chief of the bureau of yards and docks, who returned from Nowport yesterday afternoon, says that the rock on which the Boston grounded was not huoved. the Boston grounded was not buoyed.

An Expedition to Lake Nyasan Washington, Aug. 7.—In a report to the department of state E. W. Smith, the department of state E. W. Smith, consul at Mexicologue, states that a Portuguese named Serpa Pinto will head an expedition to Lake Nyassa, and it is feared that the result of the expedition will be a great disturbance in the country and desiruction of the peace so long existing between Mokololo natives and foreign merchants established in the country. With Serpo Pinto are two engineers, who are to make a survey of the country between Shatno and Blantyre for the purpose of laying down a railfor the purpose of laying down a rail-road to the latter place. The 350 natives forming the escort will proceed by the river Shire instead of overland.

Woolen Mills Shut Down. Falls, which were seized by the sheriff on an attachment for \$112,000 in action brought by Juilliard, Quimby and Mackenzie, of A. D. Juilliard & Co., New York, are the largest factories in this part of the state. The principal this part of the state. The principal figure in the action is Juilliard himself, who previously was at the head and the eastern agent of the Oswego Falls Manufacturing company, organized thirteen years ago. In 1884 a new corporation was formed, the Riverside and Oswego mills, including the Oswego Falls con cern and factories near Providence, R. I., where the headquarters of the new company were established. It is alleged that Juilliard held no stock in the con-orn, he simply advancing them money as it was wanted. This, however, is denied by some who claim that he is a large store keeper. The estimated value of the mill is \$1,500,000 and 120 persons employed. The monthly pay roll was \$22,000. The mill has shut down.

Franklin, Tenn., Aug. 7.—Miss Jennic Tatum, aged about 60 years, was
found hanging from a limb of a tree
near her home, in the vicinity of Hillsboro, Monday morning, Miss Tatum,
her mother and sister, nearly as old as
herself, have lived near Hillsboro for
many years, and had the entire respect
and confidence of the community. The and confidence of the community. The only theory which accounts satisfactory for the desperate act is this: That discovering they were unable to earn a support, pride and mortification at being dependent upon the charity of neighbors so worked upon her sensibilities and preyed upon her mind as to lead her to convent the deed. mmit the deed.

GALL SETTLED IT.

He Signs the Treaty and the Sloux Reservation Will be Opened.

STANDING ROCK AGENCY, Dak., Aug. 7.—The requisite number of signatures for the opening of the great Sioux reservation has been finally secured. The sensation of the day was the signing of Chief Gall. Gall made no speech, as was expected, but with his faithful followers around him, and in the presence of those whom for years he had influenced against giving up the lands, he marched aliently to the roll, touched the pen, and amid the applause of the friendly Indians and the disapproving grunts of the Sitting Bull band it was announced that Gall had signed. This announced that Gall had signed. This settled it. The Black Feet and Upper Yanktonians followed Gall and signed with a rapidity and eagerness that proved the wonderful influence of this powerful chief.

All days the Undiana signed, and now.

All day the Indians signed, and now 11,000,009 acres of land to which the whites have been looking longingly for years are theirs.

At Pittsburg-Philadelphia took another game from the home club by better batting and field work. The attendance was only 600. The score. Al Chicago—Chicago: & New York, 10.
At Chrysland—Cleveland, 1; Washington, & At Indianapolis—Indianapolis, & Boston, & At Columbus—Columbus, & Brooklyn, 3.
At Philadelphia—Athletic, & Baltimore, & No other games were played.

We have it from Prohibition som that they will try to get Joseph K. Rus-sell, of Massillon, to accept the nomin-ation as one of the representatives on

LIVE WASHINGTON ITEMS, their ticket to be put in nomination to-day. Should this prove to be so, it will be rather a singular coincidence, to have two brothers from the same city on different tickets; Clement Russell is now the nominee on the Republican ticket, and if Joseph K. Russel is put on the Prohibition ticket for the legislating was will see fun. ture, we will see fun.

WATCH FACTORY NEWS.

The girls in the pinion room are not fond of mice. One of them nearly fainted away yesterday when she found one on her chair. It was dead and was

played an awful mean trick on an unauspecting German yesterday during
the noon hour. It seems the German
was badly mashed on a pretty girl who
works in the 'acape room. She would
have nothing to do with him and his
heart was nearly broken. Yesterday
some of the girls wrote a note to the
German and signed the young ladie's
name to it. The note stated that she
would be pleased to accompany him to would be pleased to accompany him to the take and would meet him at the Valley depot at 8 o'clock. He was hap-py and showed the note to all of his friends. At the appointed hour he was riends. At the appointed hour he was at the depot but the young lady of course failed to put in an appearance. He waited until nearly 10 o'clock when he went home. He has not tumbled that he was the victim of a practical icle.

Paul Knappe returned yesterday from his ocean voyage. He reports a delightful trip and, if we are to judge from his looks, we havent a word to say to the contrary.

Fred P. Webb and Will Fales arrived here from Eigin yesterday. They go in finishing B room.

The latest fad in the different rooms is voting to ascertaining which girl in the department carries off the honors for beauty. How will the motion room come out?

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria

CHRONIC DISEASES.

CHRONIC DISEASES.

The Doctor treats no aguite diseases, but makes an entire specialty of chronic and long-standing diseases. Cases given up by other doctors and pronounced longrable, he meet desires to see. Dit, BURNEt has treated over 12,000 cases in Ohio in the last twe years, many of which has been given up as HOULARIE, nome to be Blind, others Dosf, and a large Number to be invalide for late. But beheld I now thay See and Hear, and many are on the High Boad to Health and improving every day.

The Doctor is surrounded with the largest relication of fine Instruments ever imported to the country for oramining and treating all chronic diseases of the Read, Pare, Eye, Ear, Throat, licent, Lungs, Stomach, Liver, Richeys, Bladder, Skite, Brain and Nervous thystem, Cancora Tumors, Pies, swellings, Old Stress, Fits, Parsipis, beuralgia, Rheumatiem, Propay, Gout, sile linedache, Dability, Depression of Spirits, Diseases of Children, Birnaidary Phosasus, etc., sto., and, in fact, all imperiancing and Chronic Diseases. All surgices operations performed.

DELAY IS DANGEROUS. Many diseases are so decoptive that hundreds of persons have them before they even nunced it. They know they are not well, but are prefectly ignorant of the deadly fangs which are fastening apon them, and must, sooner or later, certainly destroy them, unless reasoned by a skilled hand. Are you affletself Your case may now be perfectly earable, but Remember every moment of nearest brings you neares its insurable stages, when perhaps the most skillful physician contrader you no assistance. The present is ours, the full ure in: you to D. LATE.

DR. H. R. BURNER

EXAMINATIONS FREE TO ALL. EXAMINATIONS FREE TO ALL.

Whenever it is known that DR. BURNER is stopping at a place, crewds exher to consult him, and it is not to be wondered at when it is remain bered that in diagnosing a disease he never asks a quantion, but describes the different diseases better than the sick can themselves. It is a wonderful sife for any one to possess, and DR. BURNER'S diagnostis powers have created wonder throughout the country.

He adopted the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, vizi He executly notes the symptoms of the pationt, and ascortain the country not in the large hospitals, and is not an engine and in the condition of the internal organs, all of which he executily records in his register for future reference. In his way he accertains the grow nature of the disease and its cause. Knowing the disease he innove the change it produced in the tissues, and knowing the change he obecky than with specific remodels and places the patient on the high road to recovery. When sick twopic commit him he resultly to is their whether he cas cline or help them, or whether they are beyond hepe.

HIS IMPROVED METRODS OF TREATMENT

LATEST DISCOVERIES AND IMPROVEMENTS.

The Doctor has had a whole life of study and experience in his profession, and enjoys advantages which fall to the lot of early districtions in the European Colleges in Analytical but few! After attending his Full Courses in the Medical and Microscopical Examinations of the Blood, Urine, etc., Colleges, and graduating with the highest honors, he was not which are now considered indispersible to a correct diagnosis content to stop there, but has since attended other Celleges, in many diseases. He has also a extensive supply of the and several times reviewed the whole profession; has also latest and best Professional Apy ratus for the treatment of traveled extensively for the purpose of improvement, having difficult cases, by modern meth is, embracing many which visited the best Medical Colleges, Hospita's, Diepensaries, are but seldom found outside of he larger cities. There are Eye, Ear, Lung and other Medi al and Surgical Institutions on many diseases which physicians in common practice do not both Continents; traveling thousands of miles both by land usually treat, and are, therefore, seldom prepared with the and sea; expending thousands of dellars; improving everynecessary and costly outfit to examine correctly, er treat with advantage within his comms nd, and devoting the best years success; such cases, therefore, would do well to call at once of his life to become thoroughly familiar with his profession in and learn their true condition, and whether the doors of Hope all its branches. are yet open, or forever closed against them.
